## SUBJECT INDEX TO VOLUME 24

- Abdominal circumference**  
fetus, ultrasound, diabetes mellitus, large for gestational age, 1–7
- Abdominal CT**  
extramedullary plasmacytoma, <sup>67</sup>Ga scintigraphy, 365–367
- Abducens nerve**  
MRI, optic nerve, oculomotor nerve, trochlear nerve, 337–343
- Abnormalities**  
mammography, false-negative, true-positive, breast, 96–103
- Abstracts**, 49–56, 107–117, 177–180, 250–253, 327–330
- Acute abdomen**  
computed tomography, epiploic appendagitis, 357–361
- Adrenal lymphangioma**  
cystic lymphangioma, 104–106
- AIDS**  
*Aspergillus*, splenic infarct, 362–364
- Aneurysm**  
renal artery, CT, spiral CT, CT angiography, 221–223
- Aneurysmal cyst of the soft tissue**  
pelvic cavity, computed tomography, magnetic resonance imaging, histopathology, 68–71
- Angiodysplasia-intestinal**  
small bowel, hemorrhage, helical CT, 61–63
- Angiography**  
arteriovenous malformation, duplex, renal cyst, ultrasound, 166–168  
postpartum, hemorrhage, transcatheter arterial embolization, 368–370
- Aortic arch**  
aspergillosis, pseudoaneurysm, computerized tomography, 279–282
- Arteriovenous malformation**  
angiography, duplex, renal cyst, ultrasound, 166–168
- Arteriovenous shunt**  
uterus, invasive mole, gestational trophoblastic disease, MR imaging, 227–230
- Aspergillosis**  
pseudoaneurysm, aortic arch, computerized tomography, 279–282
- Aspergillus*  
splenic infarct, AIDS, 362–364
- Azygos lobe**  
brachiocephalic vein, azygos vein, computed tomography, X-ray study, 84–85
- Azygos vein**  
brachiocephalic vein, azygos lobe, computed tomography, X-ray study, 84–85  
hemiazygos vein, superior intercostal vein, X-ray study, computed tomography, 157–158
- Bone scan**  
giant cell reparative granuloma, recurrence, 143–145
- Book reviews**, 57–59, 118–120, 254–255, 331–332
- Brachiocephalic vein**

- Posthemorrhagic hydrocephalus**  
subarachnoid hemorrhage, intraventricular hemorrhage, newborn, preterm, 121-129
- Postpartum**  
hemorrhage, angiography, transcatheter arterial embolization, 368-370
- Preterm**  
subarachnoid hemorrhage, intraventricular hemorrhage, posthemorrhagic hydrocephalus, newborn, 121-129
- Proptosis**  
POEMS, orbit, imaging, papilloedema, 193-196
- Pseudoaneurysm**  
aspergillosis, aortic arch, computerized tomography, 279-282

## Radiography

- bronchial carcinoid tumors, emphysema, collapse, bronchoscopy, 159-161
- giant cell tumor, metacarpal, ultrasound, Doppler study, computed tomography, 139-142

## Radionuclide cisternography

- cerebrospinal fluid leak, magnetic resonance imaging, spontaneous intracranial hypotension, 270-272

## Rapid imaging

- diaphragm, magnetic resonance, fluoroscopy, 347-350

## Recurrence

- giant cell reparative granuloma, bone scan, 143-145

## Renal aneurysm

- kidney metastases, choriocarcinoma metastatic, color Doppler imaging, computed tomography, magnetic resonance imaging, 217-220

## Renal artery

- aneurysm, CT, spiral CT, CT angiography, 221-223

## Renal cell carcinoma

- hepatic metastasis, spontaneous rupture, 72-74
- liver rupture, liver metastasis, transcatheter arterial embolization, 72-74

## Renal cyst

- angiography, arteriovenous malformation, duplex, ultrasound, 166-168

## Retroperitoneum

- leiomyosarcoma, pelvis, MRI, 224-226
- xanthogranulomatosis, Erdheim-Chester, histiocytosis, computed tomography, ultrasound, 64-67

## Rhabdomyosarcoma

- MRI, children, 257-262

## Sacrum

- lymphoma, non-Hodgkin's lymphoma, cauda equina syndrome, 169-173

## Sarcoidosis

- heart sarcoidosis, thorax computed tomography, heart computed tomography, 344-346

## Schwannoma

- oculomotor nerve, cranial nerves, magnetic resonance imaging, 86-88

## Sella turcica

- pituitary, tuberculosis, 89-92

## Small bowel

- angiodysplasia-intestinal, hemorrhage, helical CT, 61-63
- perforation, laparoscopic cholecystectomy, complications, gallbladder, diseases, pneumomediastinum, pneumoperitoneum, X-ray computed tomography, 204-206

## Soft tissue

- lipoma, juxtacortical, intraosseous, parosteal, periosteal, subperiosteal, 382-384
- neoplasms, tumoral calcinosis, MR imaging, CT, 154-156

## Spiral CT

- renal artery, aneurysm, CT, CT angiography, 221-223

## Splenic infarct

- Aspergillus*, AIDS, 362-364

## Spondylodiskitis

- brucellosis, cervical, lumbar, MRI, 273-275

## Spontaneous intracranial hypotension

- cerebrospinal fluid leak, magnetic resonance imaging, radionuclide cisternography, 270-272

## Spontaneous rupture

- hepatic metastasis, renal cell carcinoma, 72-74

## Stomach neoplasms

- carcinoid tumors, CT, hypergastrinemia, 200-203

## Stomach varices

- esophagus, varices, hypertension, portal, computed tomography (CT) helical, computed tomography (CT) in infants and children, 351-356

## Struma ovarii

- MR images, multilobulated, ovary neoplasms, ovary cysts, ovary MR, 28-33

## Subarachnoid hemorrhage

- intraventricular hemorrhage, posthemorrhagic hydrocephalus, newborn, preterm, 121-129

## Subperiosteal

- lipoma, juxtacortical, intraosseous, parosteal, periosteal, soft tissue, 382-384

## Superior intercostal vein

- azygos vein, hemiazygos vein, X-ray study, computed tomography, 157-158

## Synovial sarcoma

- MRI, 231-235

## Talipes equinovarus

- congenital clubfoot, neonate and infant, magnetic resonance, 243-247

## Thorax computed tomography

- sarcoidosis, heart sarcoidosis, heart computed tomography, 344-346

## Thrombophlebitis

- Lemierre's syndrome, internal jugular vein, cavitary lung nodules, lung abscesses, 197-199

## Thyroglossal duct cyst

- thyroid gland, papillary carcinoma, 75-77

## Thyroid

- thyroid gland, thyroglossal duct cyst, papillary carcinoma, 75-77
- thyroid neoplasm, thyroid metastasis, thyroid lymphoma, thyroid US, 162-165
- thyroid tuberculosis, thyroid ultrasonography, 283-286

## Toothpick perforation

- foreign body, hepatic mass, computed tomography, 93-95 Transcatheter arterial embolization
- liver rupture, renal cell carcinoma, liver metastasis, 72-74
- postpartum, hemorrhage, angiography, 368-370

## Transient

- intussusception, colon, neoplasm, computerized tomography (CT), 8-9

## Trauma

- MR bone marrow, edema bone marrow, experimental magnetic resonance (MR), 371-381

## Trochlear nerve

- MRI, optic nerve, abducens nerve, oculomotor nerve, 337-343

## True-positive

- mammography, false-negative, breast, abnormalities, 96-103

## Tuberculosis

- pituitary, sella turcica, 89-92

## Tumor perfusion

- hepatocellular carcinoma, chemoembolization, hepatic blood volume, DSC-MRI, 210-216

## Tumoral calcinosis

- soft-tissue neoplasms, MR imaging, CT, 154-156

## Tumour

- choroid plexus papilloma, hydrocephalus, 130-131

## T1-weighted inversion recovery

- brain lesion, magnetic resonance image, imaging technique, 263-269

## Ultrasound

- angiography, arteriovenous malformation, duplex, renal cyst, 166-168
- breast cancer, lobular breast carcinoma, 333-336
- fetus, diabetes mellitus, abdominal circumference, large for gestational age, 1-7
- giant cell tumor, metacarpal, radiography, Doppler study, computed tomography, 139-142
- xanthogranulomatosis, Erdheim-Chester, retroperitoneum, histiocytosis, computed tomography, 64-67
- Urologic complications
- pancreas transplantation, 132-138

## Uterus

- invasive mole, gestational trophoblastic disease, arteriovenous shunt, MR imaging, 227-230
- uterine arteriovenous malformations, uterus abnormalities, US uterus, CT uterus, uterus gestational trophoblastic disease, 10-14

## Well-differentiated liposarcoma

- lipoma, dedifferentiated liposarcoma, MRI, histology, 38-43

## Wrist

- wrist imaging, MRI, 298-322

## X-ray computed tomography

- azygos vein, hemiazygos vein, superior intercostal vein, 157-158

- brachiocephalic vein, azygos vein, azygos lobe, 84-85

- laparoscopic cholecystectomy, complications, gallbladder, diseases, small bowel perforation, pneumomediastinum, pneumoperitoneum, 204-206

## Xanthogranulomatosis

- Erdheim-Chester, retroperitoneum, histiocytosis, computed tomography, ultrasound, 64-67
